Toggle Spoiler Also known as the Black Hole, The Soul Reaper is a crow mask wearing woman. She tells the protagonist the Soul Reaper is the guardian of the heaven and living the crow world of the underworld. She has a dark past, being the Soul Reaper she has the ability to drain the life out of beings in order to make them inanimate objects. It was rumored that her power over the underworld could be so powerful that anyone who looked into her eyes would be destroyed. Before the Soul Reaper can begin to drain the life from a being, she must first take a soul from the being. However, her powers work differently depending on who she takes a soul from. A soul taken from someone who can already see will be normal. However, if she takes a soul from someone who is blind, that soul will be blind and unable to see. If she takes a soul from someone who is dead, then she will be able to take the soul, but the soul will be reanimated into an undead being. In the Soul Eater manga, after she takes a soul, she tells the soul to choose its next destination. If the soul chooses the living world, the soul will return to the body of the victim. If the soul chooses the underworld, then the soul will follow the path of darkness until it reaches the Dark Death. If the soul chooses neither, then the soul will be lost forever in the grave. Sometime after she takes the soul, the Soul Reaper is told by the King of Hell that a being named Death has plans to take over the underworld. However, before he can reach the underworld, he is confronted by four men known as the Four Kings. After she learns that these men are the Four Kings, the Soul Reaper calls on them to fight Death. The Soul Reaper believes she is going to die when the men are killed, but they are not. She asks them what they did to make her think that the gods would abandon her. They tell her that they were once humans who were abandoned by the gods as they started to forget who they were. They ask her to kill them so they can go back to the living world. However, she refuses, saying that she could not kill a god. After she releases Death, the Soul Reaper returns to the living world. She learns that Death has taken control of the underworld, making everyone under her power. However, as she is about to confront Death, 82157476af
